1. Introduction

The Finance Module is a component of the system designed to manage and track financial activities related to endorsed entrepreneurs, partners, and programs. It enforces financial tracking controls post-funding and maintains complete visibility of partner contributions, budget allocation, and utilisation.

The module serves as:

- A financial tracking system
- A budget management platform
- A partner funding monitoring system

It enables structured tracking of budgets, payments, and utilization across programs and partners.

2. Purpose

This document defines the functional requirements starting from the ones required for funding to the Finance Module, including:

- Partner assignment and contribution tracking (It is done before the Finance module, after the entrepreneur has been endorsed in the audit module)
- Entrepreneur funding lifecycle tracking
- Budget management
- Payment status monitoring
- Timesheet tracking
- Dashboard reporting and analytics

The document serves as a reference for system design, development, and implementation.

3. Scope

The Finance Module includes:

- Partner assignment and mapping (Before Finance and after the audit)
- Endorsed entrepreneur intake
- Status tracking (Endorsed, Pending, Paid, Alumni)
- Budget upload and management (external source)
- Dynamic budget head and sub-head configuration
- Payment lifecycle management (Endorsed → Pending → Paid)
- Payment tracking (manual updates)
- Budget utilization and variance tracking
- Excel data upload/download
- Timesheet configuration and tracking

- Notifications and alerts
- Dashboard and reporting
- Dashboard metrics tracking (count-based and amount-based)
- Alumni transition

4. System Users

Role	Functionalities
TEF Admin	• Creating and managing Partner Master ○ Name of partner ○ Project Name (Project = Programme) ○ Project Period/timeline ○ Project Number ○ Project Amount • Performing Entrepreneur–Programme–Partner mapping Partner allocation is not performed within the Finance module. The ownership of partner mapping lies with TEF Admin and is subject to validation by the Audit team before financial processing. • Bulk mapping of entrepreneurs to partners • Partner mapping shall be performed based on: ○ Country ○ Region / State / Province ○ Sector ○ Gender • Mapping status visible to: ○ TEF Admin ○ Audit ○ Finance sees only “Approved”
Auditor	• Checks and accepts the mapping of the entrepreneur with the partner and then sends it to the finance module.
	• Entrepreneurs are divided into three categories ○ Endorsed ○ Pending ○ Paid The entrepreneur maintains the list of the paid and pending entrepreneurs manually by marking the paid ones. Once the entrepreneur is paid, the entrepreneur’s profile gets updated to Alumni. There should be a column on the endorsed entrepreneurs list on the system where finance can input comments for any unpaid entrepreneur • Enter externally prepared budgets for each budget head, mentioning the amount each partner is supposed to fund. The budget head also contains the sub heads, the budget heads and sub heads are created dynamically by the admin

Finance Admin	and are filled whenever required. For example, Seed capital is one budget head, and the admin can create more budget head as per their requirement. • One programme can have multiple partners who fund to various budget heads and sub heads of the programme. • Upload budgets for each budget head, mentioning the amount each partner is supposed to fund. The budget head also contains the sub heads, the budget heads and sub heads are created dynamically by the admin and are filled whenever required. For example, Seed capital is one budget head, and the admin can create more budget head as per their requirement. • Monitors the payments made by the partners and marks the entrepreneur as paid. • Maintains the tracks of the amount spent on per budget head monthly and yearly. • Triggers the custom notification and the email to the entrepreneur once they are funded. • Create and manage departments and staff. • Configures and monitors timesheets so they can charge the partners for the hours the staff has logged in for the budget with which they are associated, as some of the partners also fund the salaries of the staff members. • Views Dashboard
Staff	• Log time spent on assigned programs/partners for different budgets. • Submits timesheets for tracking and billing purposes • Export timesheet data
System	• Maintains the status (endorsed, pending, paid) • Variance calculation – amount used vs left monthly and annually. • Maintains dashboards • Sends reminders to staff for logging in the timesheet and filling timesheet every day • Manages alumni transition.

5. Key Features

Feature	Description	Primary Role
Endorsed Intake	Receives endorsed entrepreneur mapped with their partners per programme from Audit Module	System

Status Tracking	Tracks Endorsed, Pending (Entrepreneurs not marked paid should automatically be the ones in pending), Paid, Alumni	Finance Admin
Budget Management	Enter the amount of the externally prepared budgets	Finance Admin
Dynamic Budget Structure	Create budget heads and sub-heads dynamically	Finance Admin
Payment Tracking	Manual update of payment status (Pending to Paid)	Finance Admin
Budget Utilization	Track monthly and yearly spending	Finance Admin
Variance Analysis	Calculate remaining vs utilized budget	System
Timesheet Management	Login, track staff effort	Finance Admin / Staff
Notifications	Notify entrepreneurs when funded and staff for filling the timesheet	System
Dashboard	Maintains the data on the dashboard	System
Dashboard	Financial insights and reporting	Finance Admin
Data management	Dashboard reports can be exported Charts can be exported individually in PNG/PDF format Budget data, entrepreneurs' data and partners' data can be exported in Excel and PDF formats	Finance Admin

6. Partner Allocation Ownership & Validation Flow

6.1 Overview

Partner allocation is not performed within the Finance module. The ownership of partner mapping lies with TEF Admin and is subject to validation by the Audit team before financial processing.

6.2 Ownership

- TEF Admin is responsible for:
 - Creating and managing Partner Master
 - Performing Entrepreneur–Programme–Partner mapping
 - Bulk mapping of entrepreneurs to partners

6.3 Mapping Criteria

Partner mapping shall be performed based on:

- Country
- Region / State / Province
- Sector

- Gender

Note: Sub-sector is excluded due to the absence of a defined master.

6.4 Process Flow

1. Audit completes entrepreneur evaluation
2. Endorsed applications are transferred to TEF Admin
3. TEF Admin performs partner mapping
4. Mapped applications are sent back to Audit
5. Audit reviews and validates partner allocation
6. Only Audit-approved applications are forwarded to Finance
7. Finance processes payments

6.5 Validation Rules

- Partner allocation must be visible to Audit
- Audit must approve or reject the allocation
- Only validated data will be available in Finance Module
- Finance cannot modify partner allocation

6.6 Partner Allocation (Finance Visibility Only)

- Finance module shall only display partner allocation data
- Partner allocation is read-only for Finance users
- Allocation data will be received only after Audit validation
- Finance users cannot create, edit, or override partner mappings

7. Role-based Functional Requirement

7.1 Finance Admin

Objective

To manage financial tracking and marking the entrepreneurs as paid.

Functional Description

a. Entrepreneur Status Management

- Entrepreneurs categorized as:
 - Endorsed
 - Pending
 - Paid
- System assigns default status as Endorsed
- Finance Admin marks entrepreneurs as Paid manually
- Pending represents unpaid entrepreneurs

- Paid entrepreneurs are transitioned to Alumni by the system.
- There should be a column on the endorsed entrepreneurs list on the system where finance can input comments for any unpaid entrepreneur

b. Budget Management

- Enters externally prepared budgets
- Includes:
 - Partner
 - Program
 - Year
 - Budget heads and sub-heads
- Budget heads and sub-heads are dynamic
Example: Seed Capital
- Multiple partners can fund a single program

c. Payment Tracking

- Payments occur outside the system
- Finance Admin:
 - Monitors partner payments
 - Updates status manually (Paid/Pending)
- Dashboard reflects updated status

d. Budget Utilization Tracking

- Tracks spending per budget head:
 - Monthly
 - Yearly
- Admin uploads actual funded data

e. Variance Analysis

- System calculates:
 - Monthly utilization
 - Yearly utilization
 - Variance = Remaining vs Utilized budget

f. Excel Management

- Download:
 - Endorsed list
 - Pending list
 - Paid list
- Upload:
 - Updated Paid/Pending records
- System updates data accordingly

g. Department and Staff Management

Systems shall provide functionality to create and manage departments.

Department Management

- Create, edit, and manage departments

Staff Management

System shall allow creation of staff records with:

- Name
- Email
- Contact details
- Department
- Employment type

Access Control

- Staff users will have access only to timesheet functionality
- Staff will not have access to financial data or dashboards

h. Timesheet Management

- Monitor logged hours
- Enable data export
- Used for partner billing

i. Notifications

- Trigger notifications and emails to entrepreneurs after funding

j. Dashboard Monitoring

- View the dashboard and track the data.

Workflow

1. Admin logs in
2. Receives endorsed data
3. Enters budget
4. Tracks payments
5. Updates status
6. Uploads actual data
7. Monitors dashboards

Business Rules

- Only endorsed entrepreneurs are processed
- Status flow: Endorsed → Pending → Paid → Alumni
- Payment is external

- Status updates are manual
- Budget must exist before tracking
- Budget structure is dynamic
- Multiple partners allowed
- Staff users do not have access to financial data or dashboards beyond timesheet functionality

7.2 Staff

Objective

To log effort for tracking and billing purposes.

Timesheet Management Enhancement

The timesheet module shall be used strictly for tracking working hours.

Functionalities:

- Staff shall log daily working hours
- System shall allow selection of custom date ranges:
 - Daily
 - Weekly
 - Monthly
- System shall capture login-based working hours where applicable
- Leave management is not part of the timesheet module

Reporting:

- Partner-wise timesheet reports
- Department-wise, consolidated reports
- Staff-level breakdown of working hours

Export:

- Excel
- PDF

Functional Description

- Log time spent on programs and partners
- Submit timesheets
- Export timesheet data

Workflow

1. Login
2. Receive notification
3. Enter daily hours

4. Submit timesheet
5. Export data

Business Rules

- Daily logging mandatory
- Data stored per program/partner
- Used for billing
- Fields defined dynamically

7.3 System

Objective

To automate tracking, reporting, and data consistency.

Budget Currency Configuration

The system shall allow the selection of currency during budget creation.

Supported currencies:

- USD
- Naira
- Pounds
- Euros

Rules:

- Currency must be selected at the time of budget creation
- Budget tracking and reporting shall respect selected currency
- Multi-currency data shall be supported in dashboards and reports

Functional Description

- Receives endorsed data
- Assigns default status
- Stores budgets
- Stores payment updates
- Calculates variance
- Updates dashboards
- Generates reports
- Applies filters
- Enables export
- Sends reminders
- Manages alumni transition
- System restricts access or actions for unauthorized or restricted users

Workflow

1. Receive data
2. Store records
3. Process updates
4. Calculate metrics
5. Update dashboards
6. Trigger notifications

Business Rules

- Maintains statuses
- Does not process payments
- Updates based on admin input
- Performs automatic variance calculation
- Sends daily reminders
- Supports alumni transition

8. Dashboards

- Dashboard and reports can be exported
 - Each chart shall be individually exportable (PNG/PDF)
 - Budget export shall support: Excel, PDF
- All charts are dynamically updated based on applied filters and data changes

8.1 Main Dashboard

Displays

- Total Endorsed entrepreneurs
- Total Pending entrepreneurs
- Total Paid entrepreneurs
- To be filtered by -
 - Year
 - Gender
 - Sector
 - Partner
 - Programme

Charts

- Under charts & visualization: There should be a pie chart and histogram showing the number of entrepreneurs paid per partner.
Charts represent:

- Amount paid per partner
- Number of entrepreneurs funded per partner
- To be filtered by year, gender, sector, and programme.

8.2 Budget Dashboard

Features

- Consolidated partner budget
- To be filtered by
 - Partner
 - Budget Head/Sub-head
 - Year
 - Programme (Added by us)
 - Sector
- Pie chart showing Naira, Dollar, Pounds, Euro

Visualizations

- Histogram:
 - Budget per partner
 - Budget per head/sub-head
- To be filtered by -
 - Programme
 - Gender
 - Year
 - Sector.

9. Conclusion

The Finance Module is a financial tracking and management system that ensures visibility and structured monitoring of budgets, partner funding, and entrepreneur payments.

It does not perform financial transactions but enables effective tracking, reporting, and decision-making.
