1. Introduction

The Monitoring & Evaluation (M&E) Module is designed to track the progress and impact of entrepreneurs throughout their lifecycle in the programme. It captures data through structured surveys filled by entrepreneurs and verification conducted by enumerators. The module ensures continuous monitoring through multiple survey stages and validation via physical verification.

2. Purpose

This document defines the functional requirements, workflows, and business rules for the Monitoring & Evaluation Module. It serves as a reference for implementation, ensuring accurate tracking of entrepreneur status, survey lifecycle, verification, and reporting.

3. Scope

The M&E Module includes:

- Entrepreneur status tracking
- Module-level tracking (LMS, Pitching, Audit, Mentorship, Alumni, etc.)
- Status segregation (Completed, Pending per module)
- Maintenance of dropped-off entrepreneur data
- Dynamic survey creation and repeatable execution
- Survey ownership flexibility (Entrepreneur / Enumerator)
- Survey lifecycle management (Baseline, Midline, Endline, Business Performance, Fund Use, Drop-off)
- Survey validation, review, and rejection workflows
- Enumerator assignment, reassignment, and target tracking
- Drop-off classification based on time-bound completion
- Alumni workflows (Fund Use Assessment with receipt upload and Success Story submission)
- Success story review, approval, rejection, and publishing
- Notification system (Email and SMS)
- Dashboard visualization with filters (Programme, Country, Cohort, Region, Sector)
- Training completion and survey analytics
- Data export integration to Microsoft Power BI
- Historical tracking
- Role-based access control
- System logging (timestamps, IP address, login history)

4. System Users

Role	Functionalities
Monitoring & Evaluation Admin	• M&E Admin witnesses the UI for three tabs - Survey creation Entrepreneur Enumerator • Create dynamic surveys (Baseline, Midline, Endline, Business Performance, Fund Use, Drop-off) with questions, field types, terms & conditions, headings, and document upload per question. • Manage Survey Templates and Initiate Surveys. • Select target users (Entrepreneur or Enumerator). • Define survey timeframe (start date and end date). • Send surveys through the portal and through email (dropped off surveys if entrepreneurs fill it) • Can trigger surveys multiple times for monitoring and quarterly assessments. • Send an automated custom reminder notification and email to the target users to fill out the survey before deadlines. • Review survey submissions and reject surveys with remark or reason for the rejection. • Resend the survey link to the entrepreneur or reassign/resend the enumerator upon rejection. • Reschedule survey timeframe. • Bulk upload the list of entrepreneurs • View entrepreneur status (stage of module, Surveys, Dropped Off, Funded) and module-level, survey tracking (Completed, Pending) and who took the survey. • He should see the survey attempts by the entrepreneur. • Bulk upload the list of enumerators. • Send the notification to the entrepreneur to fill out the surveys if the entrepreneur is the target user. • Create and deactivate enumerator accounts. • View the list of the entrepreneurs assigned to the enumerator. • Set enumerator targets (number of verifications to be performed within a defined date range). • View the status of the verification (pending/completed) from the enumerator's end. • He should see the verification attempts by the enumerator.

	• Monitors enumerators' performance based on the data collected within the timelines and how correct it is (Entrepreneur's assigned, verification completed, date assigned, date on which the survey was completed). • Automated bulk assignment of the entrepreneurs to enumerators based on location (country and region). • Filter entrepreneurs during the assignment based on location, status, and programme. • Reassign enumerators if incorrectly mapped to entrepreneurs. • Send notification to the enumerators for new assignments and deadlines. • View, review, approve, and reject success stories with remarks. • View dashboard analytics and export data.
Enumerator	• View assigned entrepreneurs. • Discuss with the entrepreneur (through WhatsApp/SMS/call) after receiving admin notification for the selection of the date and time for the verification. • Register the date, time and location of the verification on the portal after discussing it with the entrepreneur (outside the portal). • Send the notification and email to the entrepreneur regarding visit. • Visit entrepreneur's location (offline coordination). • Fill surveys assigned by admin. • Upload supporting documents (photos, videos, documents) per question. • Ensure correct format and required fields. Capture verification data. • Optionally record and upload voice during verification (under discussion). • Capture GPS location as per the question in the surveys • Upload geotagged photos as per the questions in the surveys. • Add notes/comments as per the questions in the surveys. • Submit the survey. • Reschedule the date and time if the survey is rejected. • Re-record the date, time and location on the portal. • Resend the email to the entrepreneur. • Revisit and resubmit the survey.

	Receive the reminder notification and email to fill out the surveys.
Entrepreneur	- Receive survey notifications (email/SMS). - Receive the custom reminder notifications from the M&E admin. - Submit surveys. - Provide mandatory consent for data usage at end of the survey. - Submit Success Stories through the Alumni Community Module (text, images, videos) through the dedicated form page.

5. Key Features

Feature	Description	Primary Role
Entrepreneur Status Tracking	Tracks lifecycle (Dropped Off, Funded, Alumni) and module-level progress (Completed, Pending)	M&E Admin
Dynamic Survey System	Surveys created for separate target users (enumerator/entrepreneur) dynamically, with customizable questions and document upload per question	M&E Admin
Survey Lifecycle Management	Baseline, Midline, Endline, Business Performance, Fund Use, Drop-off surveys with repeatable execution	M&E Admin
Survey Ownership	Admin decides whether Entrepreneur or Enumerator fills the survey	M&E Admin
Email/notification (Target user - Entrepreneur)	Admin sends the notification/email to the entrepreneur for filling the survey	Admin
Enumerator Verification	Physical verification through survey submission with supporting documents	Enumerator
Time slot selection and registering on the portal (Target user – Enumerator)	Enumerator discusses the time slot with the entrepreneur and registers it on the portal after the final selection.	Enumerator
Email/notification (Target user - Enumerator)	Send email/notification to the entrepreneur for the verification along with the date, time and location	Enumerator
Reminder Email	Send an automated custom reminder email and notification to the target users (Entrepreneurs/Enumerators) to complete the surveys before the deadline.	M&E Admin
Survey Submission	Surveys submitted within defined timeline with validation rules	Entrepreneur / Enumerator

Notification System	Email and SMS notifications with reminders	M&E Admin
Target Tracking	Tracks enumerator assignment, completion, and pending tasks	M&E Admin
Survey Review System	Admin reviews and rejects incorrect submissions	M&E Admin
Resubmission of survey	Resubmission of the surveys is required on rejection	Entrepreneur/ Enumerator
Success Story Management	Submission, review, approval, rejection, publishing	Entrepreneur / Admin
Dashboard Monitoring	Visual analytics with filters and progression tracking	M&E Admin
Data Export	Integration with Microsoft Power BI	M&E Admin

Note: Offline download of the surveys, offline survey capability with synchronization, offline data collection and caching, these points will be implemented if feasible

Survey Lifecycle Execution

Stage	Trigger
Baseline Survey	When entrepreneur is enrolled (Active entrepreneurs)
Midline Survey	After 6 months of baseline (Active entrepreneurs)
Endline Survey	Day after funding (Funded entrepreneurs)
Enterprise/Business Performance Tracking	Trigger decided by M&E Admin
Fund Use Assessment	When entrepreneur becomes Alumni (Receipt upload mandatory)
Drop-off Survey	When entrepreneur fails to complete module within defined time

6. Role-Based Functional Requirements

6.1 Monitoring & Evaluation Admin

Objective

To manage the complete survey lifecycle, assign verification tasks, monitor entrepreneur progress, and evaluate all submissions.

Functional Description

The M&E Admin controls the entire monitoring process:

a. Survey Management

The M&E Admin is responsible for creating, configuring, initiating, and monitoring surveys.

- Create dynamic surveys including:
 - Baseline
 - Midline
 - Endline
 - Business Performance
 - Fund Use
 - Drop-off
- Define survey structure with:
 - Questions
 - Field types
 - Terms & conditions
 - Headings
 - Supporting document upload per question
- Manage:
 - Survey Templates
 - Initiated Surveys
- Select target users:
 - Entrepreneur
 - Enumerator
- Define survey timeframe:
 - Start date
 - End date

- Trigger surveys multiple times for:
 - Monitoring
 - Quarterly assessments
- Distribute surveys through:
 - Portal
 - Email (specifically for dropped-off surveys when entrepreneur is target user)
- Send:
 - An automated custom reminder notification
 - Email reminders before deadlines
- Review survey submissions:
 - Reject surveys with remarks/reasons
 - Resend survey link to entrepreneur
 - Resend the enumerator for surveys
 - Reassign enumerator if required
- Reschedule survey timeframe when needed

b. Entrepreneur Management

The M&E Admin manages entrepreneur data, tracking, and interactions.

- Bulk upload the list of entrepreneurs
- View entrepreneur details including:
 - Stage of module
 - Survey participation
 - Dropped-off status
 - Funded status
- Track module-level and survey-level status:
 - Completed
 - Pending
- Identify:
 - Which survey is taken by which entrepreneur
 - Who filled the survey (Entrepreneur or Enumerator)
- View survey attempts made by entrepreneurs
- Send notifications to entrepreneurs to fill surveys

c. Enumerator Management

The M&E Admin manages enumerator accounts and assignments.

- Create and deactivate enumerator accounts

- (Two-factor authentication under discussion)
- Bulk upload the list of enumerators
- Bulk assign entrepreneurs to enumerators
- Assign based on:
 - Country
 - Region
- Filter entrepreneurs during assignment based on:
 - Location
 - Status
 - Programme
- Reassign enumerators if incorrectly mapped
- View:
 - List of entrepreneurs assigned to each enumerator
- Send notifications to enumerators:
 - New assignments
 - Deadlines

d. Verification & Target Tracking

The M&E Admin monitors verification activities performed by enumerators.

- Set enumerator targets:
 - Number of verifications
 - Defined date range
- Track verification status:
 - Pending
 - Completed
- View verification attempts made by enumerators
- Monitor enumerator performance based on:
 - Number of entrepreneurs assigned
 - Verification completion within timelines
 - Accuracy of submitted data

e. Success Story Management

The M&E Admin manages success story submissions.

- View submitted success stories
- Review success story content
- Approve or reject success stories with remarks

f. Monitoring, Tracking & Visibility

The M&E Admin has access to complete monitoring and tracking of the system.

- View:
 - Entrepreneur status (stage, dropped off, funded)
 - Module-level progress (Completed, Active, Pending)
 - Survey tracking and participation
 - Survey attempts by entrepreneurs
 - Verification attempts by enumerators

g. Notifications & Communication

The M&E Admin controls system notifications.

- Send notifications to:
 - Entrepreneurs for survey completion
 - Enumerators for assignments and deadlines
- Send:
 - Reminder notifications
 - Deadline alerts

h. Dashboard Monitoring

1. Basic Metrics

- Total entrepreneurs
- Active entrepreneurs
- Dropped-off entrepreneurs
- Funded entrepreneurs
- Total surveys submitted
- Total surveys pending

2. Verification Metrics (Missing but Required)

- Pending verifications
- Completed verifications
- Verification success rate
- Verification status tracking
- Verification attempts tracking
- Verification history

3. Survey Performance Metrics

- Survey completion rates
- Survey drop-offs
- Survey response rates (real-time)
- Partial vs complete submissions
- Survey progress tracking during filling

4. Enumerator Performance Metrics

- Total assigned
- Completed
- Pending
- Enumerator workload visibility
- Enumerator performance metrics
- Verification quality scoring

5. Training & Programme Analytics

- Training completion analytics
- Progression analytics
- Cohort performance
- Programme performance analytics

6. Advanced Dashboard Capabilities

- Interactive visualizations
- Drill-down capabilities
- Time-series / trend analysis
- Geographic heat maps
- Real-time data updates
- Custom report generation

7. Filtering & Segmentation

- Programme
- Country
- Cohort
- Region
- Sector
- Gender
- Language
- Stage

8. Alerts & Notifications

- Real-time indicators/alerts
- Verification reminders
- Survey deadlines
- Assignment notifications

9. Additional Dashboard Layers

- Mentorship analytics (matching & engagement)
- Alumni engagement tracking
- Application funnel analytics (completion, abandonment trends)
- Demographic analysis
- Geographic analysis

Note - Export data to Microsoft Power BI

i. Timestamping Requirements

1. Survey Lifecycle

- Survey template creation and updates
- Survey initiation
- Survey submission (Entrepreneur / Enumerator)
- Survey resubmission
- Survey approval and rejection

2. Enumerator Activities

- Enumerator account creation and deactivation
- Enumerator login and session activity
- Assignment and reassignment of entrepreneurs
- Survey starts and submission
- Verification completion
- Revisit and resubmission

3. Entrepreneur Activities

- Survey access/opening
- Survey submission and resubmission
- Fund Use Assessment submission
- Success Story submission
- Consent approval for data usage

4. Administrative Actions

- Survey creation, configuration, and targeting
- Enumerator assignment and reassignment
- Approval and rejection decisions
- Rescheduling of survey timelines
- Notification and reminder triggers
- Funding eligibility updates (if applicable)

5. Verification Workflow

- Verification scheduling (if implemented)
- Verification attempts
- Verification completion
- Verification rejection

6. System-Level Events

- User login and logout
- Session tracking
- IP address logging
- System-triggered notifications

j. History Maintenance Requirements

1. Survey Data History

- All survey responses (including versions)
- Submission and resubmission records
- Approval and rejection history
- Survey completion status changes

2. Verification History

- Verification attempts and outcomes
- Enumerator submissions and resubmissions
- Revisit history
- Rejection reasons and correction.

3. Enumerator History

- Assignment and reassignment records
- Performance tracking history
- Activity logs

- Login history

4. Entrepreneur Lifecycle History

- Stage/module transitions
- Status changes (Completed, Pending)
- Drop-off records
- Funding status updates

5. Success Story & Content History

- Submission versions
- Approval/rejection history
- Updates over time
- Content usage permissions

6. Survey Administration History

- Survey template versions
- Survey configuration and targeting history
- Survey scheduling history

7. System Audit Logs

- User activity logs
- IP address logs
- Timestamped action logs
- Session and login history

8. Monitoring & Analytics History

- Historical survey submissions
- Longitudinal tracking across cohorts
- Programme and cohort performance history
- Trend and time-series data

Workflow

1. Admin logs in
2. Creates survey template
3. Initiates survey
4. Assigns ownership (Entrepreneur/Enumerator)
5. Defines timeline
6. System sends notifications

7. Survey filled
8. Validation applied
9. Admin reviews
10. Rejection loop triggered if needed
11. Enumerator assignment if required
12. Target tracking updated
13. Data reflected in dashboard

Business Rules

- Surveys created only by Admin
- Surveys are dynamic and repeatable
- Timeline mandatory
- Ownership exclusive per survey instance
- Surveys non-editable after submission
- Tracking survey progress during administration (Maintaining the status of the Survey completed in percentage)
- Maintaining the status of the time taken by the entrepreneurs to complete the survey
- Consent is mandatory at the end of the survey
- Document upload per question
- Question insights to be added for better understanding
- One enumerator per entrepreneur at a time
- Assignment based on location
- Drop-off based on time completion failure
- Historical versioning maintained
- Role-based data visibility enforced

6.2 Enumerator

Objective

To perform field verification and submit validated survey data.

Functional Description

- View assigned entrepreneurs
- Perform surveys after admin notification
- Visit entrepreneur location (offline coordination)
- Fill survey

- Upload:
 - Photos
 - Videos
 - Documents
 - Record and upload a voice

Workflow

1. Enumerator logs in
2. Views assigned entrepreneurs
3. Coordinates visit externally
4. Visit location
5. Fills survey
6. Uploads documents within the survey (photos/videos/documents)
7. Submits survey
8. If rejected → revisits within new date range

Business Rules

- Access limited to assigned entrepreneurs
- Submission within date range
- All required fields mandatory
- Correct format required
- Submission blocked if an invalid format of documents is uploaded.
- Resubmission required after rejection
- Only one enumerator per entrepreneur
- 2FA required for the sign-up of the enumerator.

6.3 Entrepreneur

Objective

To submit surveys, Fund Use forms, and Success Stories.

Functional Description

- Receive survey notifications (email/SMS)
- Fill surveys
- Upload supporting documents
- Provide mandatory consent for data usage

- Submit:
 - o Surveys
 - o Fund Use Assessment (with receipt upload)
 - o Success Story (text, images, videos)

Workflow

1. Entrepreneur receives notification
2. Opens survey link
3. Fills survey
4. Uploads documents
5. Provides consent
6. Submits survey
7. If rejected → resubmit OR enumerator assigned
8. If Alumni:
 - a. Submit Fund Use
 - b. Submit Success Story
9. Admin reviews Success Story
10. Approved → published

Business Rules

- Submission within timeline
- Consent mandatory (To be mentioned under each survey)
- Surveys non-editable after submission
- Drop-off survey via email through link
- Fund Use mandatory for Alumni
- Success Story requires approval
