1. Introduction

The Mentorship Module within TEConnect facilitates engagement between mentors and entrepreneurs (mentees). It supports mentor onboarding, pairing, query management, feedback collection, and certification evaluation through a controlled administrative workflow.

2. Purpose

This document defines the functional requirements and role-based processes governing the Mentorship Module. It serves as a reference for stakeholders, developers, and administrators to ensure consistent implementation and operation.

3. Scope

The module includes mentor registration, administrative approval, mentor–mentee pairing, mentorship interactions, repair requests, survey-based evaluation, dashboards, and reporting. The module supports mentor onboarding through direct registration and alumni role enablement.

All actions are governed by defined role-based access controls across Admin, Mentor, and Entrepreneur users.

4. System Users

Role	Functionalities
Mentor Admin	• Mentor Admin is approved by Super Admin. • Review mentor registrations. • Approve or reject mentors with comments • Import existing mentors. • View mentor and entrepreneur records. • Assign mentors using filters in batches, i.e. equal number of • mentees assigned to each of the mentors who have the same filters. • Approves or rejects re-pairing requests. • Monitor mentorship dashboard metrics. • Download dashboard reports in PDF format. • Evaluate survey results for certification decisions. • Download the format/template for surveys. • Upload survey questions into the system. • Issue the certificate to mentor. • Admin shall have the capability to bulk select multiple mentors and issue certificates simultaneously based on evaluation outcomes.
Mentor	• Login after approval. • In the case of an alumnus as a mentor, it visits its existing profile. • Alumni click "Become a Mentor". • Selects sector and waits for approval from the admin. • Logs in as a Mentor (role) after approval. • View mentorship dashboard. • View assigned mentees. • Respond to entrepreneur queries. • View Certificate.
Entrepreneur (Mentee)	• View assigned mentor details (including Phone number and Email ID). • Submit queries. • Edit, update, or delete queries until a response is received from the mentor over the same query. • Submit Mentor change requests. • Completes mentorship survey within the timeline set by the admin. • The mentee will participate in the survey and provide feedback after the programme cycle has ended, that is, the entrepreneur has been funded, or he has become an alumnus. • View query response.

5. Key Features

#	Key Feature	Description	Primary Role(s) Involved
1	Mentor Registration & Approval Workflow	Structured onboarding process where mentors register through the Entrepreneur Portal and require TEF Admin approval or rejection with mandatory comments. In case of alumni, the alumni visit its already existing profile. Clicks on the option "Become a mentor". He then selects the sector and submits. The admin views and approves or rejects his request.	Mentor, Admin
2	Role-Based Access Control	Separate interfaces and permissions for TEF Admin, Mentor, and Entrepreneur ensuring controlled actions and secure workflows.	Admin, Mentor, Entrepreneur
3	Mentor–Mentee Pairing Mechanism	Admin-driven assignment of mentors to entrepreneurs using filters such as programme, language, sector, and gender. The assignment needs to be done in batches, i.e., equal number of mentees will be assigned to each of the mentors at once who have the same filters associated with each other. Admin dashboard providing consolidated	Admin
4	Centralized User Management	visibility of mentors and entrepreneurs, including status filters (approved, pending, rejected). Entrepreneurs submit mentorship queries and	Admin
5	Query Management System	mentors respond with single-response threads, including timestamp capture and query status tracking. Entrepreneurs request mentor reassignment	Entrepreneur, Mentor
6	Re-Pairing Request Workflow	using predefined reasons, subject to Admin approval and status tracking. Mentor can also request the reassignment of the mentee to him in case he has vacancy due to the mentee dropping off either willingly or due to the process obligations. Dedicated dashboard displaying mentorship	Entrepreneur, Mentor, Admin
7	Mentorship Dashboard & Analytics	metrics such as total mentors, mentees, mentor–mentee pairs, total queries, answered queries, and pending queries.	Admin, Mentor

8	Survey-Based Evaluation	Entrepreneurs submit mentorship feedback through surveys imported via Excel after being funded, enabling structured evaluation. The feedback should be completed in a defined timeline set by admin. Mentor also shares the feedback of the mentees assigned to him. Admin-triggered email notifications shall be sent to mentees requesting participation in mentorship feedback surveys.	Entrepreneur, Mentor, Admin
9	Certification Decision Support	Admin evaluates survey responses to determine mentor eligibility for participation certification, and if satisfied issues the certificate to the mentor.	Admin
10	Reporting & Export Capability	Dashboards support PDF download for reporting and monitoring purposes.	Admin
11	Data Filtering & Searchability	Multiple filters (date, language, sector, gender, approval status – as applicable on specific role) enable efficient management and monitoring.	Admin, Mentor, Entrepreneur

6. Role-Based Functional Requirements

6.1 Mentor Admin

Objective

To manage activities in the mentorship module that include onboarding of mentors, approval of mentors by the admin, assignment of mentee to mentor, monitoring, and certification decisions within the mentorship ecosystem.

Functional Description

The TEF Admin accesses the Admin Portal to manage users (Mentor & Mentee) under the User Management section and monitor mentorship operations through the Mentorship dashboard. The admin controls mentor approvals, mentor–mentee pairing using defined filters, repairing request (by Mentee) approvals, and survey-based certification evaluation. Admin can perform certification actions individually or through bulk selection of mentors.

Workflow

1. Admin logs into the Admin Portal.
2. Navigates to the **Mentor** section to view registered mentors.
3. Admin can review mentor requests originating from:
 - o New mentor registrations
 - o Alumni mentor enablement requests
4. Reviews mentor details (name, email, contact, country, language, gender, sector, region).
5. He approves or rejects mentor applications and provides a comment while rejecting.
6. There will be an option to segregate mentors with filters programme, approved mentors, pending mentors, and rejected mentors.
7. Admin can also import the existing mentors.
8. Then he navigates to an **Entrepreneur's** section.
9. Views entrepreneur details.
10. There will be a functionality of pairing the mentor with a mentee by the Admin. The criteria for the pairing are language, gender and sector.
11. The assignment needs to be done in batches, i.e., equal number of mentees will be assigned to each of the mentors at once who have the same filters associated with each other.
12. He selects the filters (programme, language, sector, gender) and then selects a particular number of entrepreneurs.

13. As soon as the admin selects the entrepreneurs (Mentee), the **Assign Mentors** button is enabled.
14. Admin assigns mentors to selected entrepreneurs.
15. Later, if the mentee (entrepreneur) is not satisfied with the mentor; he/she can request for re-pairing of the mentor from their portal.
16. Admin views “mentor change request” and either approves or rejects it.
17. Admin accesses Mentorship Module dashboard displaying:
 - a. Total mentors
 - b. Total mentees
 - c. Approved mentors
 - d. Pending [for approval] mentors
 - e. Total queries
 - f. Answered queries
 - g. Pending queries
18. Admin downloads survey template
19. Admin enters the questions with their relevant options and uploads it.
20. Once the survey responses are submitted by the mentee, the admin gets notified.
21. He evaluates the timely submitted survey responses by entrepreneurs.
22. Admin triggers periodic email notifications to entrepreneurs (mentees) requesting completion of mentorship feedback surveys.
23. Admin views eligible mentors list.
24. Admin selects one or multiple mentors using bulk selection checkbox.
25. “Issue Certificate” button becomes enabled.
26. Admin clicks button to issue certificates collectively.
27. System records certificate issuance timestamp.
28. The admin can see the number of total mentees who are supposed to participate in the survey, the number of mentees who have participated in the survey and pending mentees who are supposed to participate in the survey.

Business Rules

1. Mentor registration requests must be approved before mentor access is granted.
2. Alumni mentor activation requires admin approval
3. Alumni profile shall retain existing identity while mentor role is enabled.
4. If a person becomes a mentor through the alumni route, the admin will know that the person was previously an alumnus. However, if someone signs up directly as a mentor, the admin will see it as N/A.
5. Rejection requires mandatory comment entry.
6. Mentor assignment is filter-based (language, sector, gender).

7. Repairing requests must be approved by Admin before reassignment status changes.
8. Survey responses are reviewed by Admin for certification decision.
9. If the survey submission exceeds the timeline, the mentee will not be able to participate in the survey.
10. A mentee can have a single mentor paired with his profile.
11. A mentor may be assigned to multiple mentees.
12. All mentor–mentee pairings shall be logged with a timestamp.
13. Certification status changes shall be recorded in audit logs.
14. Admin dashboard metrics shall reflect real-time or near real-time system data.
15. Email notifications for survey participation shall be triggered periodically as configured by Admin.
16. Certificates may be issued individually or in bulk.
17. Bulk certification shall apply only to mentors marked eligible.
18. Certificate issuance actions shall be logged with timestamp.
19. Admin shall not issue certificates to ineligible mentors.

6.2 Mentor

Objective

To provide mentorship support by responding to entrepreneur queries and monitoring mentorship performance indicators.

Functional Description

Approved mentors log in through the Entrepreneur Portal and access their dashboard and mentee details. Mentors can view assigned mentees, respond to queries in free text, and track query history using date filters. Mentor access can originate from:

- Direct mentor registration
- Alumni role activation

Workflow

1. Mentor registers on the TEF Connect platform using the entrepreneur portal.
2. The fields required for the registration are Name, Email, country, language, gender, sector, region and password (other fields to be discussed).
3. The System routes the registered mentor application to Super Admin / TEF Admin for review and approval.
4. After the mentor is approved by the admin mentor logs in using approved credentials.
 - a. Role selection is prompted when user has multiple roles, as in case of alumni.
 - b. Post admin approval, when an alumnus logs into the profile, they will view the **“Select Role”** option, which contains the following roles:
 - Mentor
 - Alumni
 - c. Alumni-Mentor can switch roles from the profile icon on their dashboard.
5. Mentor Lands on dashboard displaying:
 - a. Total queries
 - b. Answered queries
 - c. Not responded queries
 - d. Total assigned mentees
6. Navigates to **Assigned Mentees**.
7. Views assigned mentees with attributes:
 - a. User ID
 - b. Name
 - c. Email
 - d. Language

- e. Sector
 - f. Gender
 - g. Program Name
 - h. Total query count
8. Clicks **Action** to view the details related to all the queries raised by the mentee.
 9. Admin views list of queries in the system.
 10. System displays query details along with status.
 11. The details include -
 - a. S.no.
 - b. Date and Time on which queries and responses have been uploaded
 - c. Query
 - d. Response
 - e. Status (answered/unanswered)
 - f. Action – Send
 - g. Filter of date is available
 12. Mentor enters a response to a non-answered query.
 13. Once response is entered, the **Send** button becomes available.
 14. Mentor clicks **Send** to submit response.
 15. System records query date and response date.
 16. Admin may apply date filters to view records.
 17. Following the evaluation of feedback, the admin issues a certificate to the selected mentor, which can be accessed via the mentor portal.

Business Rules

1. User with multiple roles shall access functionalities based on selected role context.
2. Role switching shall not merge dashboards.
3. An alumni can become a mentor. In this case, the alumni will have to visit their profile section from where they can request to the admin to become a mentor, after selecting the sector. The admin then shall approve/reject the alumni's request.
4. Mentor permissions remain same regardless of mentor source.
5. A single user may hold multiple roles within TEFCConnect.
6. System shall enforce role-based access per session.
7. A dialogue box must be visible to the mentor when he/she submits an answer to the query being raised by the mentee.
8. Query thread closes after response submission.
9. Mentor cannot edit, update, or delete submitted answers.
10. Date filters must be available for query tracking.
11. Mentor access shall be restricted until Admin approval is completed.
12. Mentor shall only view mentees assigned to them.

13. Submission of a response shall automatically change the query status to "Responded".
14. Mentors shall not be permitted to reopen closed queries.
15. Mentors shall not initiate re-pairing actions.
16. Mentors shall have access only to their own dashboard metrics.
17. Mentors shall be notified upon new query assignment.

6.3 Entrepreneur (Mentee)

Objective

To interact with assigned mentors, seek guidance through queries, request mentor reassignment when required, and provide feedback via surveys.

Functional Description

Entrepreneurs access the mentorship page through the Entrepreneur Portal. They can view mentor details, raise queries, submit repairing requests, and complete surveys contributing to mentor evaluation.

Workflow

1. Entrepreneur logs in and navigates to Mentorship page through the side menu item.
2. The entrepreneur lands on the page that shows the details of the mentor assigned to the mentee.
3. Clicking on the mentor, the details of the mentor are shown to the mentee.
4. The details include:
 - a. Name
 - b. Email
 - c. Contact

Ask the Mentor

5. System displays list of queries asked by the mentee with defined fields.
 - a. S.no.
 - b. Date
 - c. Time
 - d. Query (content of query)
 - e. Response (Response to the query by Mentor)
 - f. Name of the mentor who answered the question
 - g. Status (answered/ Unanswered)
 - h. Action (Edit/Delete)
6. User may apply the **Date** filter or **Status** filters to view records.
7. Mentee clicks button “**Ask Query**” to raise a new query.
8. Mentor provides response to queries.
9. System updates mentor name and response details.
10. Status reflects Answered or Unanswered based on response availability.
11. Mentee may perform Edit or Delete actions in queries till answered.
12. The interface shows the Mentor’s name that is assigned to the mentee.

Re-pairing Request

13. The platform shall allow mentees to request assignment of a new mentor when the current mentorship experience is unsatisfactory.
14. Entrepreneur (Mentee) submits a re-pairing request through the platform.
15. When the mentee clicks on the "Repairing Request" an interface to submit the reason for repairing appears.
16. Selects reason using radio buttons (for example):
 - a. Unresponsive mentor
 - b. Unsatisfactory answer
 - c. Delayed response
 - d. Other (free text)
17. Submits request.
18. Status updates to "Re-paired" after Admin approval.

Survey

1. Once funding is secured and the process is completed, the mentee participates in a survey to assess the mentor's effectiveness.
2. For the feedback survey, the question uploaded by the admin will be visible to the mentee.
3. Opens survey form populated from imported Excel questions
4. The questions will contain option in the form of radio button ranging from "Poor to Excellent" with comment.
5. Selects answers contributing to scoring.
6. Submits survey responses for Admin review.
7. These answers given by the mentee will be evaluated by the admin.
8. Based on the evaluated scores, the mentor will be provided Certificates.
9. Entrepreneurs shall receive periodic email notifications reminding them to complete mentorship feedback surveys.

Business Rules

1. Repairing request requires Admin approval to update status.
2. Survey responses are used for mentor certification evaluation.
3. Entrepreneur shall only view details of their assigned mentor.
4. Entrepreneur shall be allowed to edit or delete a query only until a mentor response is submitted.
5. After mentor response submission, the query shall become read-only (No edit/delete/update).
6. Entrepreneur shall submit only one active re-pairing request at a time.
7. Re-pairing request status shall remain "Pending" until Admin action.

8. Until a new mentor is assigned, the previously assigned mentor shall be responsible to answer the queries
9. Upon Admin approval of re-pairing, previous mentor assignment shall be closed and new assignment created.
10. Entrepreneur shall not be allowed to modify submitted survey responses.
11. Survey submission shall be mandatory before mentor certification evaluation.
12. The survey can be submitted once per mentor for a particular mentee.
13. Entrepreneur dashboard shall reflect accurate query and re-pairing statuses.
